## LIH UV Master Junior 2000W skylight symmetric medium beam with UV lamp UV 2000W skylight K12s

### Electrical Data

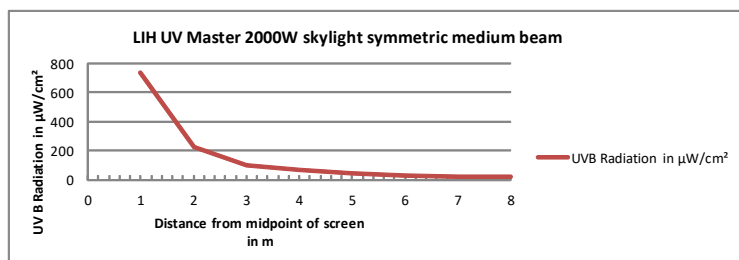

|                         |      |    |
|-------------------------|------|----|
| Wattage                 | 2000 | W  |
| Nominal Voltage (Input) | 400  | V  |
| Frequency (Input)       | 50   | Hz |

### Dimensions

|                                                   |                 |    |
|---------------------------------------------------|-----------------|----|
| Lenght x width x height with grill (with bracket) | 602 x 595 x 312 | mm |
| Distance between fixing holes on the bracket      | 190 or 380      | mm |
| Diameter of fixing holes                          | 17              | mm |
| Cable entries                                     | PG13,5          |    |

### Physical Data

|                            |                            |
|----------------------------|----------------------------|
| Reflector                  | Medium                     |
| Standard colour            | Silver grey                |
| UV B output at 2m distance | 224 $\mu\text{W}/\text{c}$ |
| Colour temperature         | 15.000 K                   |
| Colour rendering index     | 60-69 2B                   |

Please use the UV lamp 200W K12s only in UV Master 2000 of LIH Light Impex Henze GmbH. Follow the instructions. The Front glass of UV Master will cut the extraterrestrials radiation. So your animals are save.

This lamps may only be operated in closed systems equipped with suitable protection devices. UVC radiation causes skin burns and eye irritations!

Might be subject to technical modifications!

**LIH UV Master 2000W symmetric medium beam  
with UV 2000W skylight K12s**
